

FAST ST. HOUSE

We're thrilled to bring you the latest scoop from Printera's world of concrete 3D printing innovation! Our recent project, the Fast Street House, a symphony of creativity, design, and sustainable technology. Through a series of 3D printed concrete pieces installed throughout the property, we wanted to showcase the wide spectrum of our printing capabilities.

PEDESTAL

Installed near the intercoastal, this pedestal can withstand the elements while protecting a gorgeous Geoffrey Smith Sculpture

ENTRY COLUMNS AND PLANTERS

The awe-inspiring entry columns with matching planters serve as both functional and artistic elements. Their seamless integration into the home defines the space to create a cohesive, visually stunning structure.

BESPOKE PATIO FURNITURE

Custom patio furniture, intricately shaped through cutting-edge 3D printing technology. From chairs and tables to an outdoor bar, each creation is a harmonious blend of ergonomic excellence and individualized style

PRINT EVERYTHING!

We can turn your imagination into reality with our 3D printing expertise. Whether it's charming planters, impressive columns, or even entire houses.

CRAFTING EXPERIENCES

At Printera, we don't simply construct buildings; we create immersive experiences. Fast Street House establishes a fresh benchmark for contemporary sophistication. By seamlessly incorporating cutting-edge 3D printing methods, we guarantee durability and strength, pushing the limits of outdoor design possibilities. Join us in commemorating this exceptional work of art and keep an eye out for upcoming innovative creations!
